

ENTERPRISE ARCHITECTURE: TOGAF® 9 LEVEL 1 & 2 CERTIFICATION 4 DAY VIRTUAL ONLINE & CLASSROOM TRAINING

*Our approach is to make
you feel empowered
to practice what you
have learned*

COURSE OBJECTIVE

The purpose of certification for TOGAF 9 Level 1 & 2, known as TOGAF 9 Foundation & TOGAF 9 Certified, is to provide validation, knowledge and comprehension of the TOGAF specification. Upon completion of this course, the candidate should be able to analyze and apply this knowledge to their day to day work and should also be able to successfully complete the TOGAF L1 and L2 Certification Exams.

WHAT WILL I LEARN?

Sufficient material will be covered during to the course so that students should have the necessary knowledge to be put forward for TOGAF Certification by The Open Group.

Learning Objectives

- To train students in the basic concepts of enterprise architecture and TOGAF.
- To familiarize students with the features of TOGAF and its methodology.
- To enable students to take best advantage of how to use TOGAF in their work.
- To gain an understanding of the necessary body of knowledge to achieve certification by Examination for TOGAF 9 at Level 1 (TOGAF 9 Foundation) or Level 2 (TOGAF 9 Certified).

WHO SHOULD ATTEND?

Designed for those IT Professionals who are desiring TOGAF Certification, a frequent stepping stone for someone who has been promoted into or is targeting a role as a solution architect, typically progressing from a technical lead position. The following specific role would likely find it useful in their work and also helpful in moving to the next level on a natural career progression.

- Experienced Developers
- Development Team Leaders
- Enterprise Architects
- Business Architects
- Program / Project Managers
- Business Analysts

WHY TRAIN WITH CC AND C SOLUTIONS

CC and C Solutions is a pioneer in TOGAF® education and a Gold Member of The Open Group for over a decade. We bring you the experience and knowledge of leading Architecture practitioners.

The training prepares the participants for the actual application of the architectural concepts and focuses on building skills to be a good architect. A number of real life customer case studies will be presented to enhance the understanding and appreciation of the architecture and design concepts in practice.

Our approach is to make you feel empowered to practice what you have learned.
