ENTERPRISE ARCHITECTURE

TOGAF® ENTERPRISE ARCHITECTURE PRACTITIONER

4-DAY TRAINING: LIVE ONLINE OR CLASSROOM

BASED ON THE TOGAF STANDARD, 10th EDITION

*Our approach is
to make you feel
empowered
to practice what
you have learned*

COURSE OBJECTIVE

The TOGAF EA Practitioner course combines TOGAF EA Foundation and TOGAF EA Practitioner training, including the Practitioner Learning Studies. The training prepares you for the TOGAF EA Foundation + Practitioner combined exam, leading to the **TOGAF Applied Practitioner badge** and the **TOGAF® Enterprise Architecture Practitioner certification**.

WHAT WILL I LEARN?

This officially recognized course aims to provide knowledge and comprehension of the TOGAF Standard, 10th Edition, including the ability to analyze and apply the Standard to developing, sustaining and using an Enterprise Architecture.

Learning Objectives

➢ The Concepts of Enterprise Architecture and the TOGAF Standard
➢ The Context for Enterprise Architecture
➢ Key Definitions: The Language of Architecture
➢ The Architecture Development Method (ADM)
➢ ADM Techniques
➢ Architecture Content: ADM Outputs
➢ Applying the ADM
➢ Stakeholder Management
➢ Executing the Architecture Vision phase
➢ Business Architecture Guidelines and Techniques
➢ Developing Business, Data, Application and Technology Architectures
➢ Implementing the Architecture
➢ Architecture Governance
➢ Architecture Requirements Management
➢ Architecture Change Management

WHO SHOULD ATTEND?

Designed for IT professionals who need the most current TOGAF certification, and who want to learn from a genuine, experienced Enterprise Architect.

TOGAF certification is a requirement for many job roles, and is often the key to better compensation and advancement opportunities. Understanding the language and methods of Enterprise Architecture can be a key to success in many related roles including:

- ➢ Members of New and Existing EA Teams
- ➢ Enterprise Architects
- ➢ Business Architects
- ➢ Solution Architects
- ➢ Application Architects
- ➢ Data Architects
- ➢ Information Architects
- ➢ Infrastructure Architects
- ➢ Security Architects
- ➢ Experienced Developers
- ➢ Development Team Leaders
- ➢ Program / Project Managers
- ➢ Business Analysts

PREREQUISITES

No specific prerequisites for this course.

COURSE DETAILS

CC&C TOGAF certification training includes:

➢ The Open Group Exam Voucher
➢ Four Full Days of Instruction
➢ Live Course Delivery Facilitated by an Experienced Enterprise Architect
➢ Delivery in Either a Traditional Classroom or Live Online
➢ In-Course Candidate Support Materials
➢ A Range of Self-Study Materials
➢ CC&C's Unique TOGAF Case Study, With Hands-On Exercises
➢ After-Course Individual Support for Exam Prep and General Advice

CERTIFICATION

TOGAF Enterprise Architecture Practitioner is the most up-to-date TOGAF certification, reflecting the many enhancements and updates found in The TOGAF Standard, 10th Edition, released in 2022.

Upon course completion, each candidate will receive the exam voucher and instructions on how to schedule their exam.

Individuals who obtain the TOGAF® Enterprise Architecture Practitioner certification and who have satisfactorily completed the **TOGAF Enterprise Architecture Practitioner Learning Studies** (included in this training) will become eligible to apply for the **TOGAF Applied Practitioner badge**.

Phases in Detail Sample Artifacts to consider Metamodels

Architecture Partitioning and Iterations

ABOUT THE TOGAF STANDARD, 10th EDITION

In 2022 The Open Group published this long-awaited update to the structure and breadth of the previous TOGAF version.

The core TOGAF Body of Knowledge and this course have been extended to include modern concerns such as agile architecture, digital transformation and the Digital Enterprise, capability based planning, fully integrated risk and security and more.

For full details of the new standard, visit opengroup.org.

WHY TRAIN WITH CC AND C SOLUTIONS

CC and C Solutions is a pioneer in TOGAF® education. We helped create the original TOGAF certification program and have been Gold Members of The Open Group for over a decade. We bring you the experience and knowledge of leading Architecture practitioners.

The training prepares the participants for the actual application of the architectural concepts and focuses on building skills to be a good architect.

Our approach is to make you feel empowered to practice what you have learned.

www.ccandcsolutions.com

CC and C's mission is to make our customers self-sufficient through systematic and customized skills transfer in the key strategic area of Enterprise Architecture.

Our success includes helping many Fortune 500 multinational clients create strong processes and governance-based EA foundations, supporting standardization, integration and rationalization of multiple business units.

CC and C has an ongoing and close relationship with TOGAF (The Open Group Architecture Framework) development and implementation internationally.
